

AMERICAN COUNCIL OF ENGINEERING COMPANIES
of Colorado

GEORGE WASHINGTON CRITERIA FOR LEADERSHIP AWARD

The Washington Award is an annual award given to an ACEC/CO member for outstanding service to the community, the progress of Colorado and the advancement of the public image of consulting engineering as a profession. It is symbolized by our first president, George Washington, and it is presented to someone who has exhibited leadership, and has impacted public policy and general societal issues.

We ask that you look around at your peers and fellow consultants and nominate someone who you feel exhibits the above qualifications. It is recognized by ACEC/CO that most people involved in the above activities are not contributing for their own recognition. This award is being given to recognize this individual's unselfish contributions and to encourage others to become involved in "big picture" decision making activities.

The presentation of this award will be made at the Annual Meeting in April.

You may use the nomination form on the next page, or send us a letter describing the nominee's achievements that qualify him/her to receive this award.

Past Recipients

1992 - Richard Weingardt	2002 - Ken Wright
